

Stepping Stones Reentry
Housing Project

QUARTERLY REPORT SEPTEMBER 2022

IMPACT REPORT

Learning & Adapting

This first quarter has taught us a great deal and we have continually adapted our program where necessary to align with what we have learned. We knew this would be part of a pilot project and the challenge has only made us all better at what we are doing.

A message from Power in Passion

This first quarter has brought about many more challenges than expected, but those challenges don't compare to the wins, milestones, connections and growth that we have seen and felt in just the first few months.

We are committed to the success of our residents and the program, which is why with each unexpected turn we have researched, reached out to other experts in the field and brainstormed with our collaborators.
